CNRM TRANSLATIONAL IMAGING FACILITY (TIF)
IN VIVO IMAGING REQUEST FORM

Please complete the Preliminary Imaging Information section and e-mail to tif@usuhs.mil.

All procedures will be performed under TIF supervision. TIF Director or designee approval must be obtained prior to initiating imaging.

Preliminary Imaging Information

Request Date:

Investigator Name:

Phone Number: E-mail:

USUHS #: IACUC # (if applicable):

☐ CNRM Funding ☐ USU Funding

☐ External Funding

Animal Species/Strain: Contrast/Radioisotope:

One-time imaging

After imaging the animals will be:

☐ Euthanized by the investigator using the following approved method:

☐ Returned to the LAM

Longitudinal Imaging

Frequency and Duration:

Frequency (daily, weekly, monthly, etc): Duration (scan):

Maximum number of imaging sessions for each animal:

At completion of longitudinal imaging studies:

☐ Euthanized by the investigator using the following approved method:

☐ Returned to LAM

Number of animals to be imaged Total hours requested:

NOTE: This is the anticipated number of animals to be imaged based on preliminary review of the study requirements. Additional animals are permitted to undergo imaging procedures as long as the request is coordinated through TIF in advance and that the USUHS#, IACUC#, species/strain, proposed research, and modality/agent remain the same. TIF maintains associated records regarding the total number of animals imaged under an investigator's approved protocol.

Proposed Research

Background (Brief paragraph):

Research Study Design (Brief paragraph):

☐ Please check here to verify that a submitted or approved animal use protocol covers all animal-related procedures referenced above (N/A for ex vivo imaging). An approved IACUC protocol must be submitted to the TIF prior to the initial study.

Will surgical procedures and/or tissues be collected while in the imaging facility?

☐ Yes ☐ No

If YES, please specify the procedure[s]:

TIF USE ONLY
