

## Postdoctoral positions available

Two postdoctoral positions are available at the Department of Biochemistry, Uniformed Services University to perform structural and biochemical research on potential drug target proteins from *Mycobacterium tuberculosis*. The candidates will be involved in recombinant protein expression and purification, biochemical analysis, and crystal structure determination. Candidates must have a recent Ph.D. degree in biochemistry or a related field, with experience in protein expression and purification. Prior experience in X-ray crystallography is preferred. Uniformed Services University is located across the street from the National Institute of Health (NIH) campus in Bethesda, Maryland. Interested persons please send CV with names of at least two referees by e-mail to:

Shuishu Wang
