

X. ADDITIONAL INFORMATION

A. PROPOSAL TOPIC CONSULTATION

Applicants may contact service-specific Research Consultants/Specialty Leaders to discuss a proposal topic and its development and to determine whether the topic is of interest to the military services. Names and contact information of the Research Consultants/Specialty Leaders are listed in Appendix H.

B. CHANGES IN ADDRESS OR STATUS OF PRINCIPAL INVESTIGATOR

The PI must inform the TSNRP office and the grantee organization of any changes in mailing address, phone number, fax number, e-mail address, military assignment, or rank. Failure to report these changes could delay the receipt of funding decision notification. Updated information can be submitted online at <http://www.usuhs.mil/tsnrp/site/updatecontact.shtml> or by mail to the following address:

Executive Director
TriService Nursing Research Program
4301 Jones Bridge Road
Bethesda, MD 20814

C. CHANGES IN KEY PERSONNEL, WORK EFFORT, OR JOB RESPONSIBILITIES

After funding, any changes in percentage effort, job responsibilities, or key personnel require approval from TSNRP prior to the change. See Appendices J and K.

D. CONTRACT VENDOR REGISTRY

All applicant grantee organizations must be registered in the Central Contractor Registration (CCR) through <http://www.ccr.gov>. The applicant organization must have a Trading Partner Identification Number (TPIN).

E. ETHICAL ISSUES

Once proposals are approved for funding, they are closely monitored throughout the award period. Lack of investigational progress, evidence of misuse of funds, or other scientific misconduct is subject to review and can result in serious repercussions for the investigator and the applicant organization.
